

Shaftless spirals

Shaftless spirals are available in lengths between 3.000 and 4.000 mm. (material ST 52.3 and stainless steel 304). Spirals may be used for horizontal, inclined, or vertical conveyor purposes.

V.A.V. also delivers auxiliary spirals for any size. The following table shows the standard sizes of shaftless spirals.

Shaftless spirals (parameters in mm)		
outer diameter	pitch	material height & thickness
160	195	50 x 20
215	195	50 x 20
233	145	60 x 20
280	315	60 x 25
320	315	70 x 25
380	385	80 x 25
405	435	80 x 25
460	435	80 x 25
460	500	80 x 25
480	500	80 x 25
530	500	80 x 25
640	600	80 x 25
640	600	80 x 25
